

# Why defund Planned Parenthood?

Today, events are taking place across the nation calling for the end of all federal funding of Planned Parenthood, and for those funds to be redirected to health centers that provide a higher standard of care without doing abortions. Here's why Planned Parenthood does not deserve their \$430 million annual taxpayer subsidy:

- ⓧ **Planned Parenthood is the nation's largest abortion chain.** They perform over 320,000 abortions every year—more than one third of all U.S. abortions—and abortion is their largest source of clinic income. 1 in 8 women visiting Planned Parenthood each year will get an abortion there.
- ⓧ **Planned Parenthood is a corrupt organization.** They've been caught shielding child predators, lying about what services they provide, deceiving government officials, defying state and federal laws, submitting fraudulent Medicaid claims, and harvesting and selling fetal tissue.
- ⓧ **Planned Parenthood exaggerates their role in women's healthcare.** They provide less than 2% of manual breast exams, less than 1% of pap tests, and zero mammograms annually. Despite their name, they offer almost no prenatal care, which is less than 0.2% of total annual services. 4 out of 5 women will never visit a Planned Parenthood facility.
- ⓧ **Defunding Planned Parenthood would not reduce women's healthcare.** Every dollar taken from Planned Parenthood would be redirected to thousands of Federally Qualified Health Centers that offer a wider range of services and a higher standard of care, without doing abortions.
